INTRODUCTION

Conducted for the Hoboken Model Cities Agency during the First Action Year by Phillip Danzig, the Recreation and Culture Survey lists leisure time activities in the city.

This popular edition of that survey offers Hoboken citizens a wealth of private and public facilities and programs now available to them for their enjoyment, relaxation and exercise.

The list includes programs sponsored by local government, churches, national organizations, community groups, civic organizations and individuals.

To say that the list is complete would deny constantly changing city conditions. It is, however, a working list that incorporates the pulse of activity within the city and may be used as a vehicle to enrich an individuals social and cultural life.

Sincerely,

Matt DeGennaro
Director of Public Information
